MONTE CARLO

Meet the perfect blend of ŠKODA's legendary heritage at the Rallye Monte-Carlo and style inspired by the Principality of Monaco. ŠKODA Monte Carlo is a glamorous embodiment of true automotive brilliance. Be it errands or escapades, its simply clever functionality keeps up with you. Meanwhile, its mesmerising exteriors and exquisite glossy black details stand a class apart.

ŠKODA Monte Carlo is an amalgamation of our historic triumphs and our continued efforts of bringing you the latest innovations.

Experience the finest fusion of stylish aesthetics and technology.

INTRODUCTION

GET THE LOOK THAT MATTERS.

The all-new ŠKODA KUSHAQ Monte Carlo brings you the finest fusion of aesthetics and automotive excellence. It embodies boldness from grille to rear. Make a unique style statement with every journey in this spectacular SUV.

EXTERIOR DESIGN

BEHOLD TRUE
GREATNESS.

The all-new
ŠKODA KUSHAQ Monte Carlo
dominates every road with
its grandeur. Its bold colour
pulls focus even from a distance,
while the glossy black elements
perfectly complement its design.
Turn heads every time you drive
this trendsetter.

ŠKODA Signature Grille
with Glossy Black Surround

Monte Carlo Fender Garnish

R17 Dual-tone VEGA Alloy Wheels
With Red Brake Calipers*

Glossy Black ORVMs

Glossy Black Front Diffuser

*Red Brake Calipers available only with 1.5 TSI variant

Dark Chrome Door Handles

Monte Carlo Inscribed Scuff Plates

Dual-tone Tailgate Spoiler

Glossy Black Rear Diffuser and Trunk Garnish

INTERIOR DESIGN

MAKE EVERY JOURNEY SPECIAL.

The all-new ŠKODA KUSHAQ Monte Carlo reinvents drives with exceptional comfort. The car's Ventilated Red & Black Front Leather Seats keep you comfortable on every journey. Meanwhile, the Dual-tone Interior Décor with Ruby Red Metallic Inserts exudes opulence.

Red Ambient Lighting
with Ruby Red Metallic Décor

Alu Pedals

with Red Theme

Front Door Handles with
Ruby Red Metallic Décor

25.4cm Infotainment System with ŠKODA Play Apps & Red Theme

Monte Carlo Inscribed Red & Black Rear Leatherette Seats

Carbon Steel Painted Roof

Monte Carlo Inscribed Ventilated Red & Black Front Leather Seats

■ PERFORMANCE

POWER MEETS
EFFICIENCY.

Unleash the power on every adventure. Built to deliver performance without compromising on fuel efficiency, the all-new ŠKODA KUSHAQ Monte Carlo is the perfect partner for any escapade.

ENGINES AND TRANSMISSIONS

1.0 TSI (Turbo Stratified Injection) Engine

The 1.0 TSI engine, with 85 kW (115 PS) power and 178 Nm torque, delivers performance with efficiency. The engine is available in both manual and automatic transmissions.

1.5 TSI (Turbo Stratified Injection) Engine

The all-new ŠKODA KUSHAQ Monte Carlo's 1.5 TSI engine with ACT (Active Cylinder Technology) churns out 110 kW (150 PS) power and 250 Nm torque for exceptional acceleration and sporty drives. It is available in both manual and automatic transmissions.

Manual and Automatic Transmissions

Depending on the engine, the car can be equipped with 6 speed manual/automatic and 7-speed DSG transmission.

SAFETY

YOUR SAFETY COMES FIRST.

With 6 airbags, 10+ active and passive safety features, and cutting-edge technology, the all-new ŠKODA KUSHAQ Monte Carlo protects you and your loved ones on every journey.

Tyre Pressure Monitoring System

Avoid unnecessary pitstops by keeping tabs on your tyres. This feature detects and alerts the driver to a drop in pressure in any of the 4 tyres.

Electronic Stability Control

Stay on course even in tricky situations. ESC helps to maintain directional stability and tyre traction during understeer and oversteer.

Hill Hold Control

Conquer gradients with HHC that allows a safe start uphill without using the parking brake.

Multi-collision Brake

In case of an accident, MKB prevents further uncontrolled movement of the car to avoid more collisions.

Traction Control System

TCS/ASR helps stabilize the vehicle when driving on low-grip roads. It reduces the drive power transmitted to the wheels when they spin.

Anti-lock Braking System

ABS helps maintain control of the vehicle during emergency braking. An ABS intervention is noticeable from the pulsating movements of the brake pedal.

Rollover Protection

On identifying a rollover threat, the ESC brakes particular wheels as a preventive measure.

Brake Disc Wiping

The BDW feature enhances safety while driving in the rain by removing excess water from the brake to maintain a short braking distance.

Motor Slip Regulation

MSR helps to maintain control of the vehicle in the event of a sudden reduction in speed. If the wheels of the driven axle lock, MSR increases the engine speed. This reduces the braking effect of the engine to prevent the wheels from slipping.

Electronic Differential Locking System

EDS helps to stabilise the vehicle when driving on road surfaces with different grip under the individual wheels. XDS+ helps to keep the vehicle on the turn by effectively braking the wheels on the inner side of the turn. XDS is functional up to 30km/h.
